July 1824 border treaty between the kingdoms: The Netherlands, Great Britain, Ireland and Hanover.

July 1960 the same treaty is used for the border between The Netherlands and Germany.

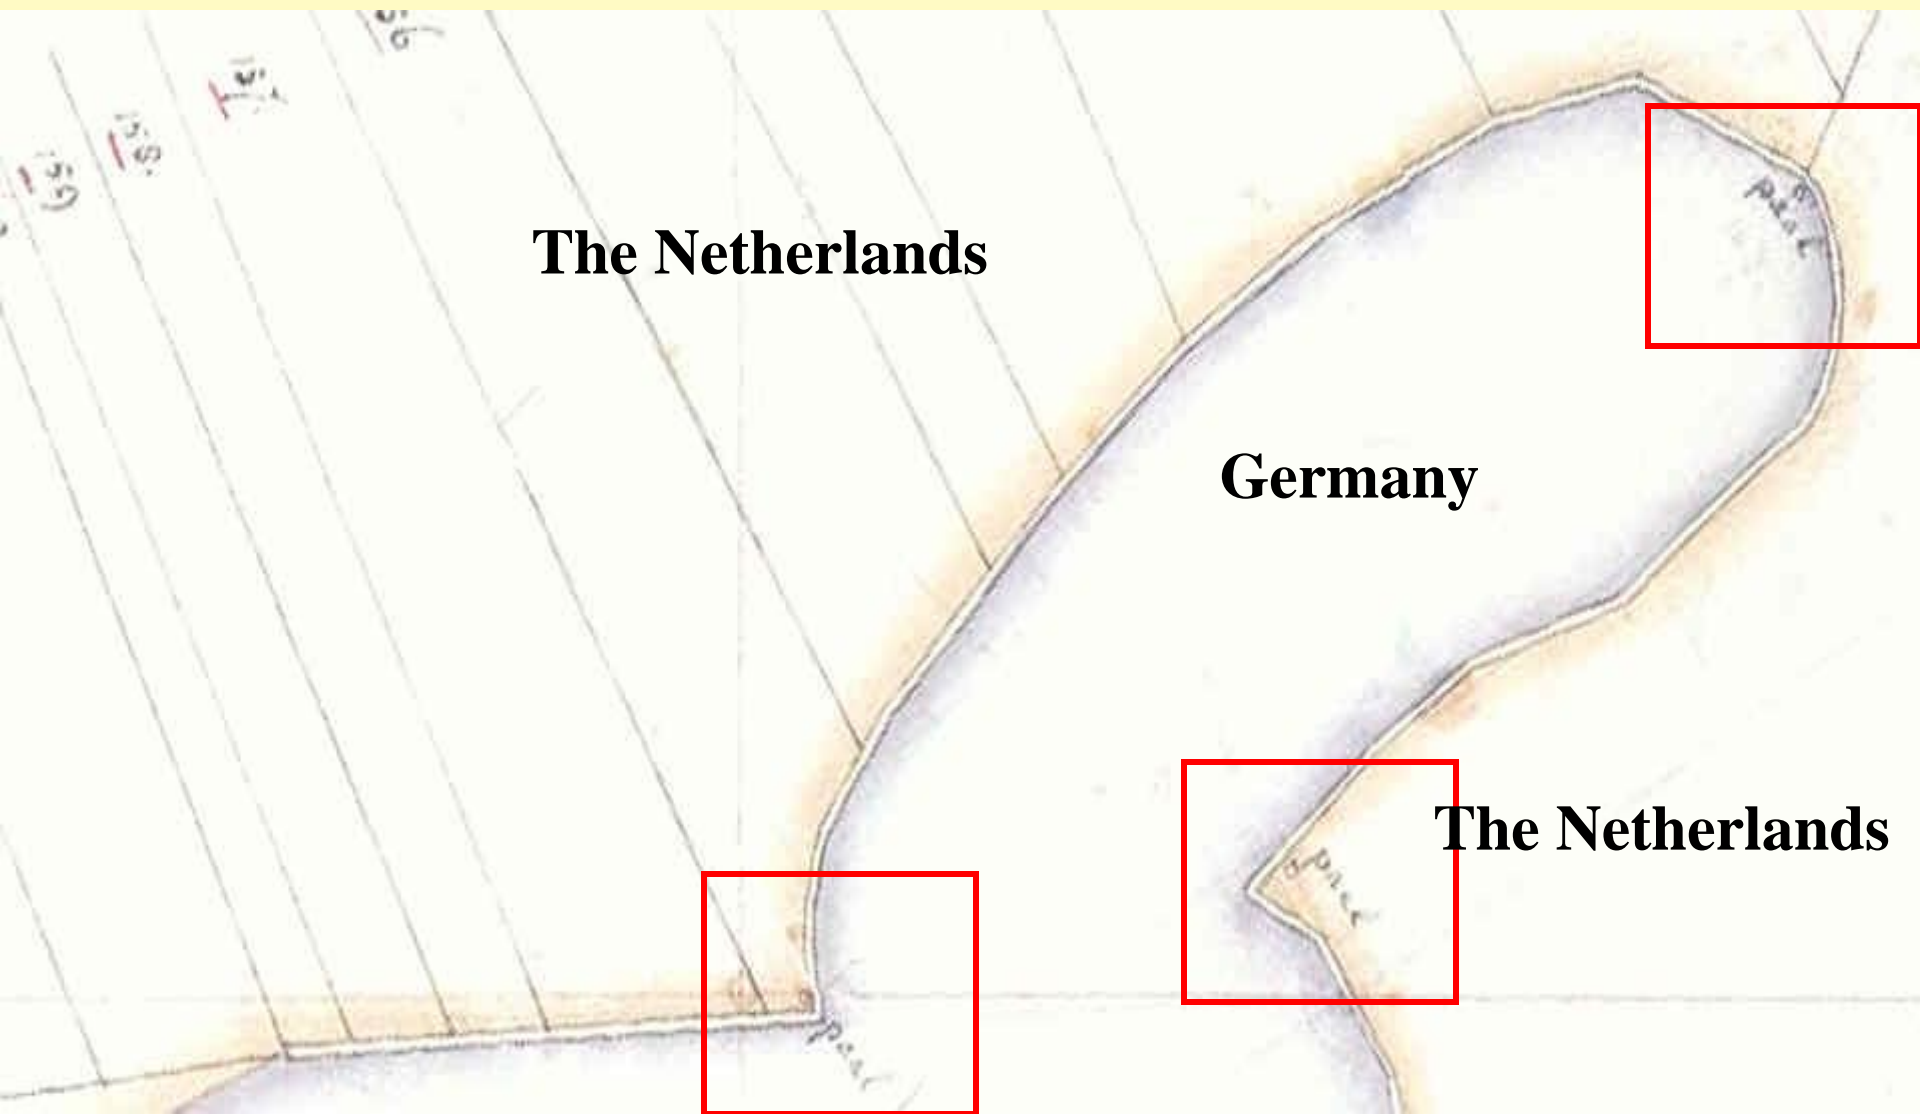

# Situation map of 1832

## There are only single borderstones

# Lays the ditch in Germany?

In the treaty of 1824 it is written, that the ditch around the camp lays in the kingdom Hanover.

In 2005 this ditch should lay in Germany.

# Corrupt mayors of the municipality Coevorden

A mayor of Coevorden starts in 2000 a **dispossession** procedure while at the same time he is director of this Business Park Europark.

This procedure severely in conflict with the Ground Law of the Netherlands **failed**.

Then a month later a few corrupt bankers helped this mayor.

Five years later an other mayor lets completely disappear the whole ditch.

# Lies concerning the ditch

- The ditch does not exist.
- Half of the ditch is bought from the German plot and the other part from The Dutchs plot.
- The ditch lays in The Netherlands.

Nobody says that the ditch still lays in Germany, because a fraudly German notary has not inscribed the ditch into the German “Grundbuch”.

# Corrupt bankers, mayors and other ones

This battle with corrupt bankers and the Dutch government has costed our family more than 4 millions of euros.

An other battle with a disco more than 900.000 euros

A third one about the milkprice more than 250.000 euros,

and a recent one concerning a milkquotum more than 350.000 euros.

Together about 5,5 millions of euros.
